- **Backend:** Node.js, Express.js, REST API Design
- **Database:** MongoDB, Firebase
- **Tools & DevOps:** Git, GitHub, VS Code, npm
- **Other:** WordPress, Basic UI/UX Design, Photoshop, CorelDRAW

PROJECTS

Personal Portfolio Website — HTML, CSS, JavaScript

- Built a fully responsive portfolio site with optimized UI and cross-device compatibility.
- Implemented smooth animations, clean layout, and mobile-first design principles.

E-Commerce Platform — MERN Stack (In Progress)

- Implementing JWT-based authentication, protected routes, and Redux Toolkit for global cart and user state management.
- Building RESTful APIs with Node.js/Express.js, integrating MongoDB for product/order data, and designing a responsive React storefront.
- Currently integrating a payment gateway and admin dashboard to support order management end-to-end.

Full-Stack Business Website — MERN Stack (Private)

- Delivered a complete full-stack web solution for a private client using the MERN stack, reducing their manual data entry process through a custom admin dashboard.
- Designed and implemented RESTful backend APIs, MongoDB data schema, and a dynamic React frontend — deployed and fully functional for the client.
